

PRODUCT ANNOUNCEMENT

KENNEDY TECHNOLOGY GROUP
RELEASE DATE: 6/18/09 - Document #65452R0

This announcement contains release information on one (1) new product for Touring Motorcycles (Goldwing, Venture, Voyager, Valkyrie)

Product: *MuseSet2*
Part Number: 95521
MSRP: USD175.00

Description: This device allows the passenger on a touring motorcycle (with audio system), to electronically disconnect his headset from the bike's audio system and connect it to a second audio source such as an iPod, iPhone, or Blackberry.

MuseSet2 contains an internal amplifier with bass boost. There are no audio controls.

Switching the headset back and forth between the bike audio system and the second audio source is accomplished by pressing a releasing an included, waterproof, pushbutton switch.

If the audio source is a cell phone, the passenger headset mic is connected to the microphone input of the phone.
